Subject: Address for JADU

Inspectors please make sure if your inspecting a Junior Accessory Dwelling Unit it gets a Letter A in the addressing and that has to be posted at the street and building per code.

So Example:

SFD 12345

Junior ADU Attached to the SFD gets 12345 A

If you have a ADU Detached it will get e new number and if numbers are not available then it will be 12345 B

Jan has worked on a standard to follow, and addresses are many time missed in the plan review intake, review and then caught at Inspection.
